Understanding the Dataset

- POS_Data
- Online_Data
- Offine_Data
- Product_Attribute_Data
- VPC_Data
- Search_Rank_Data

Synergix Solutions has collected data in 6 different tables. Let's take a look at what each of these tables contain.

Data Dictionary - POS_Data

POS Data - Weekly Level	Description
SKU_ID	SKU ID
Date	Date at which the order was executed - converted to weekend date
Product	Product Description
Manufacturer	Manufacturer name
Sector	Sector name
Category	Category name
Segment	Segment name
Brand	Brand name
Revenue($)	Sales in dollars
quantity_sold	Total no units sold
Price_per_unit	Price
Page_traffic	No of people who have visited that product

This table contains the sales for each product aggregated on a weekly basis.

Data Dictionary - Online_Data

Online_Data - Weekly level	Definitions
